System MONOBLOX 32 and VARIO 32 are shipped with T-Legs as standard.

System MONOBLOX 64 and VARIO 64 are shipped with AT32/64-Legs as standard.

To achieve higher stability for larger screen sizes or a high screen setup we recommend:

AT 32 for MONOBLOX 32 and VARIO 32 and AT 48 or AT 64 for MONOBLOX 64 and VARIO 64.

Leg supports have a telescopic element that is secured with two wing screws.

Set-up heights are points of reference and have to be adapted in accordance with the screen size and ambient conditions.

min: minimum height of the bottom edge of the frame

max: maximum height of the bottom edge of the frame without additional safeguarding

Set-up height based on absolute vertical erection without additional force effects (e.g.: wind, air condition draught,...)
