

SMART Podium™ ID422w interactive pen display

The ID422w provides

- A large workspace with a 22" (56 cm) widescreen display
- A high-definition solution with flexible scaling options to support 16:10 and 4:3 resolutions
- The ability to write notes in digital ink and save everything to a single file
- The ability to write into Microsoft Office applications and save notes in the native files

Create engaging presentations and collaborative work sessions with the SMART Podium ID422w interactive pen display. Connected to a projector and either your meeting room computer or a laptop, the ID422w enables you to interact with digital content and display your work on a larger screen, so everyone can see. You can launch office applications and websites, open multimedia files, write notes over materials in digital ink and save your work for distribution or later reference. The ID422w is suitable for any workspace, from small meeting rooms or home offices to large auditoriums.

Save notes and save time

The ID422w comes with SMART Meeting Pro™ software, which enables you to write in digital ink over standard office software applications. You can mark up files in common applications, such as Microsoft® Word, Excel®, PowerPoint®, Visio® and OneNote®, as well as Adobe® Acrobat® Pro, and SMART Meeting Pro will insert and save your notes in the original file. You can also write notes over virtually any application, capture them as screenshots and save them in a PDF or PPT file. Or you can simply write whiteboard notes in digital ink and save them. With the ID422w, your work will be displayed as you do it, so everyone in the room can see. And you can save your work for immediate distribution via e-mail or simply keep it for later reference.

Large workspace in a widescreen display

The ID422w provides a large workspace with a 22" (56 cm) widescreen display in a 16:9 aspect ratio. It has flexible scaling options to support 16:10 and 4:3 resolutions, so it's fully compatible with any widescreen devices you use to share your materials. Now it's easier than ever to engage meeting participants with wide-format videos and images.

- 1** On-screen display buttons
- 2** Pen buttons – Left mouse button, digital ink color, eraser
- 3** USB ports
- 4** Function buttons – Access the right mouse click, On-Screen Keyboard, screen capture tool, Floating Tools toolbar and SMART Meeting Pro software

Key features

Widescreen display

Connect the ID422w to a computer and easily manipulate highly detailed materials on the large, 22" (56 cm) widescreen display with a 16:9 aspect ratio. The SMART Podium is designed with straight sides and a flat bezel, so there is nothing to impede your natural writing flow.

Interactive screen

Control your computer with the tethered pen tool and write over any application with multiple digital ink colors.

Write notes

Write in digital ink over Microsoft Word, Excel, PowerPoint, Visio and OneNote files and save all handwritten notes in your documents, spreadsheets and presentations.

Save function

Capture all your work in SMART Meeting Pro to a single file and save it as a PPT or PDF file. You can also write in Microsoft Word, Excel, PowerPoint, Visio and OneNote, as well as Adobe Acrobat Pro files, and save your work in the native format – complete with digital markups.

SMART Meeting Pro software included

SMART Meeting Pro features an intuitive interface that inspires productive collaboration by enabling you to write notes in digital ink, annotate over documents and applications, and save everything to a single file.

Battery-free, tethered pen tool

Write smoothly and comfortably with the tethered pen tool. It's the point of contact on the screen, so you don't have to worry if you brush the screen with your palm or sleeve. And because the pen is battery free, there's no maintenance cost or downtime searching for replacement batteries.

Pen buttons

Change ink color, use the eraser or access the left mouse button without crowding your display with toolbars.

Function buttons

Quickly access the right mouse click, On-Screen Keyboard, screen capture tool, Floating Tools toolbar and SMART Meeting Pro software.

On-screen display buttons

Fine-tune display properties to suit your preferences.

Adjustable tilt stand

Move the console to a comfortable viewing angle.

VESA mounting plate

Use a variety of VESA mounting arms to permanently mount the SMART Podium interactive pen display on furniture. The ID422w uses the 4" (10 cm) plate.

USB connection

Easily connect the ID422w to your computer.

High-speed USB ports

Enhance your presentation by connecting a USB drive, document camera or other peripheral to one of the three high-speed USB 2 ports.

Video connection

Connect the ID422w to a computer and digital projector with the DVI, HDMI or VGA port and both the projector, and the SMART Podium display will show the same image simultaneously.

Warranty

Get a two-year warranty on the SMART Podium interactive pen display.
