

DAN ARMSTRONG MUSIC BOXES

112G / 115G

The 112G, although weighing less than your guitar in it's case, easily handles the full output of a 120 watt tube amplifier. The tone is rich, sweet, and very colorful, due to the highly resonant speaker/box coupling. Small, light and really loud. Works great in pairs with stereo rack set ups. Available with open or closed back.

A single fifteen inch speaker in an open back cabinet has long been the first choice for discerning guitarists who want the big, crisp, clear tone that only this combination produces. Try it for acoustic, jazz or steel guitar.

112G PERFORMANCE DATA

Nominal Impedance	8 ohms
Usable Frequency Response	60Hz-6.5kHz
E.I.A. Power Handling	150 watts
112G-SPL @ Rated Input, 1m	126 dB
Dimensions HxWxD	20"x20"x10" 50cmx50cmx25cm
Weight	25 lb/11.4kg

115G PERFORMANCE DATA

Nominal Impedance	8 ohms
Usable Frequency Response	60Hz-6.5kHz
E.I.A. Power Handling	150 watts
115G-SPL @ Rated Input, 1m	125 dB
Dimensions HxWxD	20"x20"x10" 50cmx50cmx25cm
Weight	25 lb/11.4kg

210G / 212G

A novel approach to twin-speaker system design. One of these tiny boxes is the equivalent of a half stack in tonality and power handling, at less than half the weight. Probably the loudest, sweetest, most musical and versatile sound per pound in the world. Available with open or closed back.

210G PERFORMANCE DATA

Nominal Impedance	4 ohms(factory Wired) or 16 ohms(customer rewired)
Usable Frequency Response	60Hz-6.5kHz
E.I.A. Power Handling	300 watts
210G-SPL @ Rated Input, 1m	129 dB
Dimensions HxWxD	20"x20"x10" 50cmx50cmx25cm
Weight	36 lb/16.36kg

212G PERFORMANCE DATA

Nominal Impedance	4 ohms(factory Wired) or 16 ohms(customer rewired)
Usable Frequency Response	60Hz-6.5kHz
E.I.A. Power Handling	300 watts
212G-SPL @ Rated Input, 1m	129 dB
Dimensions HxWxD	24"x24"x10" 61cmx61cmx25cm
Weight	44 lb/20kg

410G / 412G

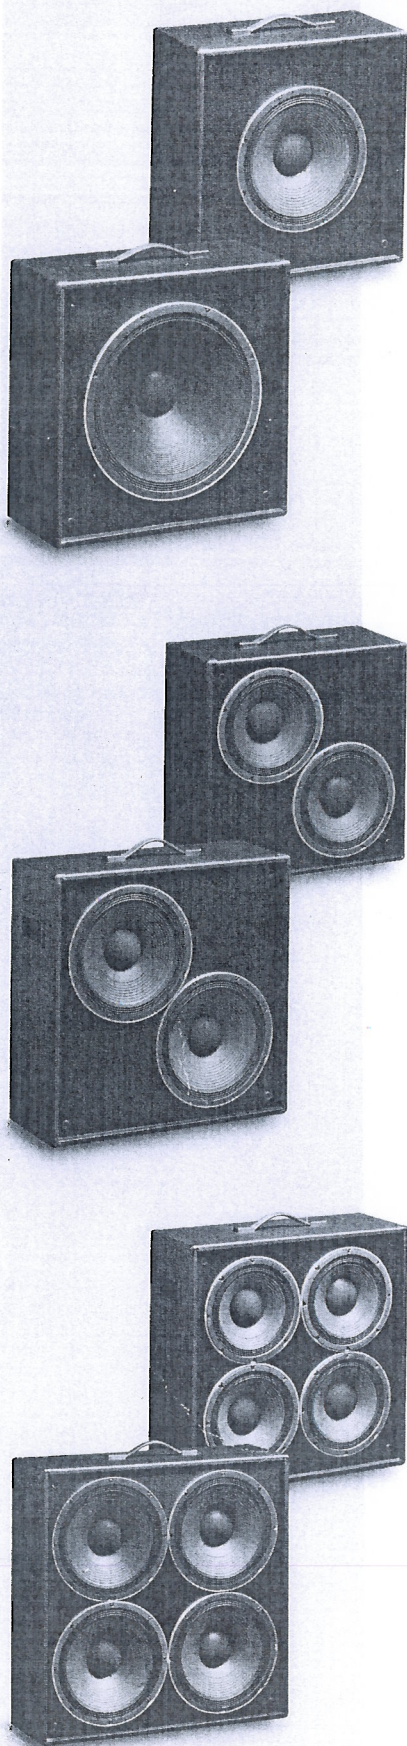

Maximum size sound in minimum size packages. Although you can carry two of these at the same time, these boxes can produce enormous volume and beautifully balanced, well-focused tone. Compliant system design makes these quad-speaker boxes sing whether you power them with 5 watts or 500 watts. Revolutionary! 410G available with open or closed back.

410G PERFORMANCE DATA

Nominal Impedance	8 ohms
Usable Frequency Response	60Hz-6.5kHz
E.I.A. Power Handling	600 watts
410G-SPL @ Rated Input, 1m	135 dB
Dimensions HxWxD	24"x24"x10" 61cmx61cmx25cm
Weight	65 lb/29.5kg

412G PERFORMANCE DATA

Nominal Impedance	8 ohms
Usable Frequency Response	60Hz-6.5kHz
E.I.A. Power Handling	600 watts
412G-SPL @ Rated Input, 1m	135 dB
Dimensions HxWxD	27"x27"x10" 68.5cmx68.5cmx25cm
Weight	70 lb/31.8kg
