The All-In-One Universal Projector Mounting Kit

Extremely flexible design allows you to fit almost any popular projector in the industry under 44 lbs (20kg). Features with 2 different length of extension arms that allows flexible positioning to fit almost any projector mounting point. And with these extensions, arms position around lamp and filter are able to be achieved for easy access/maintenance to maximize lamp life. And with the spacers provided, it allows the mounting to adapt to any projector base, no matter how oddly shaped, to maintain a level installation.

Patented Unique Cross Joint

This Robust construction allows the universal Projector mounts to be precisely positioned in almost any angle.

Our designs are not only easy to install, but attractive and complimentary to the equipment they support, the AV-813 Universal Projector mount also features:

- ▶ Easy installation – pre-assembled
- ▶ Quick Projector disconnect/reconnect
- ▶ 360° rotation with more than +/-20° tilt and roll
- ▶ Ceiling-mount capability
- ▶ Adjustable-height from 11.42" to 32" (290mm-810mm)
- ▶ Cable-routing channel for a clean look
- ▶ Load capacity 44 lbs (20kg)
