

Thank you for showing your confidence in us by purchasing the BEHRINGER CHORUS SPACE-D CD400. This ultimate effects pedal is designed to suit almost any application you can think of. Add a breathtaking third dimension to your sound or instrument and experience the secret weapon of professional recording studios.

The chorus effect adds a shifting detuned signal to the original, similar to playing in unison in a group of instruments, and it is often used for dispersing sounds.

1. CONTROLS

Top view

- 1** The *LEVEL* control adjusts the effect sound level.
- 2** The *EQ* control allows you to shape your overall effect sound. Turning it to the right will emphasize high frequencies while turning it to the left will cut them.
- 3** The *RATE* control determines the chorus effect speed.
- 4** Turn up the *DEPTH* control to achieve a fuller and deeper effect sound.
- 5** The *ON/BATT* LED illuminates when the effect is activated. It also serves as a battery level indicator.
- 6** Use the footswitch to activate/deactivate the effect.
- 7** Use this 1/4" TS *IN* connector to plug in the instrument cable.
- 8** The two 1/4" TS *OUT A* and *OUT B* connectors send the signal to your amp. Use both connectors if you want to achieve full stereo chorus effect. For mono use plug in *OUT A* only.

Use the *DC IN* connection to plug in a 9 V power supply (not included).

The *BATTERY COMPARTMENT* is located underneath the pedal cover. To install or replace the 9 V battery (not included), press the hinges with a ballpoint pen and remove the pedal cover. Be careful not to scratch the unit.

⚠ The CD400 has no on/off switch. As soon as you insert the plug into the *IN* connector, the CD400 begins running. When not using the DC400, remove the plug from the *IN* connector. This extends the life of the battery.

The *SERIAL NUMBER* is located on the underside.

⚠ In rare cases interferences of the normal function may appear by external influence (e.g. electrostatic discharge), as for example sound disturbances or malfunctions. If this occurs, please turn down the volume on subsequent amplifiers and disconnect the input connector briefly to restart the application.
