System MONOBLOX 32 and VARIO 32 are shipped with T-Legs as standard.

System MONOBLOX 64 and VARIO 64 are shipped with AT32/64-Legs as standard.

To achieve higher stability for larger screen sizes or a high screen setup we recommend:

AT 32 for MONOBLOX 32 and VARIO 32 and AT 48 or AT 64 for MONOBLOX 64 and VARIO 64.

Leg supports have a telescopic element that is secured with two wing screws.

Set-up heights are points of reference and have to be adapted in accordance with the screen size and ambient conditions.

min: minimum height of the bottom edge of the frame

max: maximum height of the bottom edge of the frame without additional safeguarding

Set-up height based on absolute vertical erection without additional force effects (e.g.: wind, air condition draught,...)

From a fabric width of 220cm, we recommend the fabric material Strato Light CF as alternative for a better flatness. See page 30. All INLINE projection screens are available for ceiling integration. (see page 32,33). Modifications, mounting systems and controllers on page 32, 33, 34, 36 and 37. Special sizes and other specifications on request.
