## Multi-Players (CD, SACD, DVD-Audio/Video)

	<b>UX-3PI</b> 	Multi-Channel SACD/DVD-Audio/Video Player with VRDS-NEO mechanism + internal 6N copper wiring and gold WBT RCA connectors, Heavy alu panels for front side and top. Upscaling to 1080P. HDMI	7.200,00	3.999,00	<b>4.799,00</b> EUR
---	---	--	----------	----------	---------------------

## CD/SACD-Players Esoteric

	<b>K-01</b>	Digital Source Device / SACD / CD Player	15.960,00		<b>19.152,00</b> EUR
	<b>K-03</b>	Digital Source Device / SACD / CD Player all-in-one advanced D/A converter and Super Audio CD/CD player series	9.880,00		<b>11.856,00</b> EUR
	<b>K-05</b>	update of the X-05 SACD/CD player. VRDS-NEO VMK-5 Super Audio CD transport mechanism, a 32-bit dual mono D/A converter ,	6.460,00		<b>7.752,00</b> EUR
	<b>K-07</b>	VOSP Super Audio CD transport mechanism, a 32-bit dual mono DAC combining multiple circuits, digital inputs with a high sampling rate, and USB input supporting 24-bit/192kHz	4.940,00		<b>5.928,00</b> EUR

## VRDS-NEO Drive Mechanisms

	<b>P-02</b>	<b>SACD/CD transport</b> - Super Audio CD, CD (CD-R/CD-RW compatible) Digital Audio Output XLR output x 2 (Use 2 terminals)	18.240,00		<b>21.888,00</b> EUR
	<b>VRDS-9N</b> 	Teac VRDS CMK-4.2 vibration-free transport 4 x 20 bits DACs 20 bit digital filter and 8x oversampling Digital volume control Frequency response: 1-20 kHz $\pm$ 0.3 dB Signal/noise ratio: 110 dB (IHF - A-weighted) Output impedance: 1000 ohm THD: 0.0013% @ 1kHz Output level: 2.2 V RMS Size: 28.5 x 13 x 33 cm (W x H x D) Weight: 9 kgs (19 lbs)	1.312,00	699,00	<b>839,00</b> EUR

## DA-Converters

	<b>D-02</b>	Dual monaural D/A converter configured with eight circuits per channel and "35-bit D/A processing" capability, can be used for high-sampling-rate sources of up to 24-bit/192kHz. XLR x2 provides support for high-sampling-rate/high-bit inputs of 48-bit/192kHz (ES-LINK3) and 24-bit/384kHz	18.240,00		<b>21.888,00</b> EUR
	<b>D-07X</b>	32 bit dual/mono D/A converter - SB input supports asynchronous transmission up to 24 bit / 192kHz, Digital filter "Off" mode and four types of digital filters , VCXO high-precision clock , Sync playback with external device is enabled by variety of clock sync functions, High-grade re-clocking function	4.180,00		<b>5.016,00</b> EUR

## Pre - Amplifiers

	<b>C-03X</b>	The <b>C-03X preamplifier</b> as the embodiment of ESOTERIC technologies, enriches the musical experience of your system to a dramatic extent. How far can a high quality preamplifier evolve the musical experience of a system? The ESOTERIC's C-03X is indeed a definitive starting point when considering an answer to the proposition. This brand new fully balanced dual-mono preamplifier brings out fantastic sonic impressions with seamless, stress-free beautiful sounds. This comes as a fruitful result of ESOTERIC's analog audio technologies accumulated over many years of dedicated research. Here is the newest preamplifier in ESOTERIC's Master Sound Works series.	8.360,00		<b>10.032,00</b> EUR
	<b>C-02</b>	The ESOTERIC's Master Sound Works series welcomes the new <b>stereo preamplifier</b> , the C-02. A reference model developed to be the most important component for creating sounds integrative for the system. Preceded by the acclaimed "K Series", the SACD players boasting seamless stress-free sound, the design found its culmination in the P-02 and D-02 with their musically evolved sonics. The C-02 is now being launched to demonstrate the ultimate height of ESOTERIC's analog audio technologies which produce musical expression never before experienced.	16.720,00		<b>20.064,00</b> EUR

## Clock Generators

	<b>G-01</b> 	<b>Master clock generator</b> with high precision Rubidium oscillator with a frequency precision of $\pm 0.05$ ppb (parts per billion) or $\pm 0.00005$ ppm which provides optimum stability as an audio clock. This next generation clock generator supports master clock outputs of 10 MHz and 22.5792 MHz.	19.000,00		<b>22.800,00</b> EUR
	<b>G-02</b> 	<b>Master clock generator</b> that uses a high precision crystal oscillator with a frequency precision of $\pm 0.01$ ppm (parts per million) that is provided with custom tuning designed specifically for ESOTERIC. G-02 has a built-in, oven-controlled crystal oscillator (OCXO) that generates stable oscillation under varying conditions. This is made possible by assembling a quartz crystal resonator and oscillation circuit in an oven that maintains the internal crystal and critical circuitry at a constant temperature. G-02 achieves a very high frequency stability of $\pm 0.01$ ppm under external temperature	5.320,00		<b>6.384,00</b> EUR
