	PA-MC5501-B	9-Channel Amplifier - Transcendental Performance from Flagship Power Amplifier				
Y H Y N B		Rather than simply offering raw power, the PA-MC5501 is engineered to deliver superior dynamic response and outstanding signal purity. Onkyo's highly efficient push-pull amplification and WRAT suite work to minimize interference, stabilize the voltage, and boost the current across the unit's electrical system. Components such as the toroidal transformer, large capacitors, and heavy-duty transistors are all designed to handle very high loads. Audiophile-grade parts—such as gold-plated speaker posts and XLR inputs—are used throughout. The result? Instantaneous response to signal gains, extremely low levels of distortion through the dynamic range, and the sort warmth and clarity only a top-shelf analog amplifier can provide. Paired with a matching Onkyo pre-processor unit, the PA-MC5501's nine channels and bi-amping capability offer extraordinary set-up flexibility to bring you the ultimate in THX® Ultra2™-certified surround sound.	4.399,00	3.227,00	3,872,00 ne E

2.1 Channel Living Speaker System

If space and budget considerations run a close second to sound quality when choosing a home cinema, then this neat 2.1-channel package from Onkyo is worth a closer look. Your days of thin sound will be over, with SRS processing technology creating an immersive 3D soundfield—perfect for movies, music, and games. But the real beauty of the system lies in its convenience. For example, the control center is preprogrammed for use with most TV remote controllers. It turns on automatically with your television and responds to volume commands from your TV remote. Two sculpted speakers—featuring a pair of 6.5 cm drivers each—can be mounted in a variety of ways on the wall or entertainment unit. The system is also great for music, with Bluetooth 2.1 allowing you to stream from your smart phone, tablet, and laptop. Analog and digital connections are included to connect a PC or CD player. Wireless implementation extends to the powered subwoofer, which can be placed anywhere in the room you like—another handy feature in what is an exceptionally useful home cinema system.

Classy and Versatile Blu-ray Player with Home Network Capability

Now you'll never be content. As Onkyo's top Blu-ray player, the THX® certified BD-SP809 provides a wide range of playback functions to complement your high-quality home cinema. As well as playing CDs, DVDs, and 3D-encoded BDs, the BD-SP809 handles videos, music, and photos sent from a DLNA 1.5-certified media server. On top of that, it also features a USB port that lets you play back audio and video files from a thumb drive. Image quality is superb, whatever the source. Onboard Qdeo™ technology from Marvel ensures pristine deinterlacing, noise-reduction, and 1080p upscaling. Twin HDMI® outputs allow you to switch between two displays—say, your main TV for daily viewing and a projector for movies and sports. And whether you're playing high-def DTS and Dolby formats or compressed MP3s, your audio benefits from a high-precision clock, separate blocks for video/audio circuitry, and a vibration-reducing top cover. It all adds up to a virtuoso playback solution for the dedicated fan of quality entertainment.

CD Hi-Fi Mini System (2 x 20W) - Stylish Mini Hi-Fi with DAB+ Adds to the Joy of Listening

With simple NFC pairing for mobiles, Bluetooth technology, and more amp power than ever, the CS-265DAB brings big and beautiful sound to small spaces. The wealth of convenient media options continues with a smooth front-loading CD player, DAB+ tuner with 40 station presets, and a clear USB connection for iOS devices and MP3-filled flash drives. Whichever way you play, you'll appreciate sound that belies the system's compact form. A redesigned digital amp and powerful 2-way bookshelf speakers help to uncover hidden details in the mix while projecting music deep and wide in your room. Like it punchy, or with more laid-back presentation? Proper tone controls and a 2-Mode Super Bass function let you find the right balance. Offered in fresh Arctic white and looking fantastic with its clean, sleek lines, the CS-265DAB is easily the coolest and best-sounding mini system we've ever made at this price. It feels reassuringly weighty, solid, and well worthy of our 65 years in the Hi-Fi business.

CD Hi-Fi Mini System (2 x 20W) - Add a Splash of Color to Your Lifestyle

While there is always a place for all-in-one docking systems, you can't beat a punchy amp and separate speakers for an authentic stereo experience. The CS-265 CD Hi-Fi Mini System combines deeply satisfying audio quality—beyond what you would expect from such a compact and affordable system—with playback support from a wide range of sources. Getting the tunes flowing is easy—just pop your iPhone 5 into the charging dock and send music through the digital amp and out the heavy-duty two-way bookshelf speakers, which each boast a 10 cm woofer and 2 cm balanced-dome tweeter. The USB port connects older iPhone and iPod models, flash memory drives loaded with MP3 files, as well as USB-compatible smartphones, with track selection supported via the system remote. Then there's a front-loading CD player, an FM tuner capable of storing 30 of your favorite stations, and a 3.5 mm analog input to connect other media players. All that remains is for you to sit back, relax, and listen as your music comes alive.

Compact Disc Player - Solid Deck Has the Goods for Superb CD Sound

Three elements give the C-755 an edge in audio refinement: first, a rigid 1.6 mm-thick full-flat chassis combines with a solid aluminum faceplate to virtually eliminate vibration. Second, a massive custom EI transformer and large audio-grade capacitors stabilize voltage, feeding your amp with a clean full-bandwidth signal. This improves soundstaging, headroom, and channel separation. Third, it has a high-quality DAC, precision clock, and VLSC™ filtering should you choose to output a pulse-noise-free analog signal to your power amp. Compact half-width dimensions, meanwhile, give freedom to position this stylish player anywhere, without it dominating your interior design. Paired with a matching R-N855 Network Stereo Receiver or refreshing an existing stereo setup, the C-755 will delight with seriously great sound.

HiFi Reference

	M-5000R	Thrill to the Visceral Power of Stereo Music, when you hear it in all its glory, has the power to lift the spirits and transport you into another realm. Driving you there in audiophile style is Onkyo's newest hi-fi power amplifier, the M-5000R. Signal quality on the M-5000R is meticulously preserved by new AW RAT technology, while three-stage inverted Darlington circuitry provides extremely efficient power output. Massive twin toroidal transformers and four 27,000 µF capacitors work to stabilize the power supply and current, respectively. And to minimize errors in stereophonic playback, the amplifier incorporates a totally symmetrical alignment of power devices for left and right channels.	4,074,00	3,910,00	4,692,00 <small>net B</small>

		DAB+/DAB/FM Tuner - Your Favorite Stations Reborn in High Fidelity				
	T-4030 (S) T-4030 (B)	<p>With digital radio, you not only get an impressively wide selection of stations to choose from, you can also enjoy clearer reception and the convenience of 40 preset channels at the touch of a button. Designed for enthusiasts who know a quality component when they see it, the T-4030 ensures that radio signals are kept free from interference—from the time they're picked up by the supplied antennas right through to the amplification stage. Owners can choose to employ the tuner's digital outputs to send DAB+, DAB, and FM Digital signals to the pre-amp for processing, or use the onboard Wolfson® DAC to create a pristine analog signal for your power amplifier. Either way, you can be assured of a deeper, clearer, and more expansive sound thanks to the audiophile-grade capacitor and tough anti-resonant construction. The tuner is RI-compatible to enable control of the device using your main system remote, and is packed with intelligent features to smooth your path to a world of talk radio, news, and music.</p>	436,00	364,00	437,00 ne D	
		Network Tuner - Expand Your Horizons with Onkyo's T-4070 Network Tuner				
	T-4070 (S) T-4070 (B)	<p>Onkyo's AirPlay-compatible T-4070 Network Tuner is ready for the media revolution. Connect the T-4070 to your home network for access to cloud-based streaming services, internet radio, and PC-based multi-format music libraries. Stream audio wirelessly from your iOS device or PC with AirPlay, or enjoy music stored on iPod, iPhone, or flash-memory device via the direct-digital USB port. Naturally, you can also select from available AM/FM/DAB/DAB+ radio stations. Managing this abundance of music couldn't be easier, with Onkyo's Remote App for iPod touch/iPhone and Android phone putting control of the T-4070 in the palm of your hand. Whichever way you choose to listen, you'll be blown away by the sheer quality of the sound. Encased in a 1.6 mm-thick anti-vibration chassis, the DIDRC circuitry and Wolfson® 192 kHz/24-bit DACs on each channel deliver extremely accurate, audiophile-level processing. Added to an Onkyo Reference Series hi-fi system or to your existing stereo set-up, the T-4070 will reinvigorate the soundtrack to your life.</p>	1.130,00	780,00	936,00 ne G

		Compact Disc Player - Stunning Fidelity from a Stylish and Affordable CD Player				
	C-7030 (S) C-7030 (B)	<p>For music lovers who enjoy the tangible experience of playing a physical format, the CD retains its enduring appeal. The pleasure comes not just from browsing a collection of discs and reading the liner notes. It also comes from enjoying your music in superior fidelity. By combining high-quality components and decades of Onkyo audio know-how, the C-7030 CD player delivers a superb playback experience. The key lies in keeping the audio signal clean and free from interference, all the way to the output stage. To achieve this, we employ a new high-precision clock to dramatically reduce timing errors, along with our original VLSC™ to reduce pulse noise. Driving the system is a massive, custom-built transformer that provides a clean and stable power supply. Given how affordable the C-7030 is, build quality is exceptional. A 1.6 mm-thick flat chassis base helps reduce unwanted vibrations, while the sleek aluminum front panel provides an elegant finish.</p>	389,00	338,00	406,00 ne D

Y	 SKS HT588 (B)	5.1.2-Channel Home Cinema Speaker System - Experience the Magic of Next-Gen Cinema Sound This six-piece speaker package reproduces everything from multidimensional Dolby Atmos® soundtracks to MP3s streamed from your phone with utmost precision. Two-way front speakers feature large paper-cone woofers and balanced-dome tweeters to articulate wide-spectrum audio with timing, clarity, and scale. They include an upfiring driver housed in a compartment in the top of the cabinet which bounces "sound objects" contained in Dolby Atmos and DTS:X™ soundtracks off the ceiling and into the audience, convincingly replicating sounds that originate from overhead. Joining two compact, wall-mountable surround-sound speakers and the dual-drive 2-Way center speaker is a powerful 10-inch subwoofer delivering up to 80 W of wall-shaking bass. Finished in elegant black hairline, the SKS-HT588 package is the most convenient way to get immersed in next-generation cinema sound magic.	896,00		1.075,00 ne B	
Y H Y N E	 SKS HT978 (B)	5.1-Channel Home Theatre Speaker System - Time to Get Serious About THX® Reference Sound If you're serious about experiencing THX-certified cinema reference surround-sound in your entertainment space, look no further than the SKS-HT978THX package from Onkyo. Born of a legendary 70-year Hi-Fi heritage, each speaker has been painstakingly designed, tuned, and independently tested by Onkyo and THX technicians to ensure film soundtracks explode with rich layers of detail and immersive wide-spectrum dynamics. Solid MDF cabinets are fitted with either one (surrounds) or two (front LR and center) A-DMF woofer diaphragms that use layers of lightweight polyethylene naphthalate, cotton weave, and aramid to achieve exceptional speed and accuracy, while high-quality 2.5 cm soft-dome tweeters clearly extend treble out to 45 kHz. And because the speakers are sealed, you can position them almost anywhere—it's even possible to wall-mount the surrounds—without compromising bass power or clarity. Rounding out this 5.1-channel speaker package is a 125 W powered subwoofer, it's high-capacity cabinet and 30 cm front-firing cone filling rooms with wall-shaking bass impact. Forget lightweight toys—this beautifully finished full-scale system is the most convenient and affordable route to THX multiplex sound.	1.121,00		1.345,00 ne B

Meanwhile, the crossover frequency can be adjusted from 50 Hz to 200 Hz, for an optimal match with your speaker set. With the SKW-208, you get heart-pounding explosions, hypnotic basslines, and all-enveloping low-frequency effects.	233,00		280,00 ne B	
Y H Y N B	 SKH-410 (B)	The Easy Way to Add Dolby Atmos® to Your Home Theater Now there's a convenient and affordable way to unlock the full Dolby Atmos sound experience in your home theater. You get to keep your existing speaker setup exactly as you like it, and you don't need to install in-ceiling speakers. The Onkyo SKH-410 speakers connect to your Dolby Atmos-compatible A/V receiver's height channels and are designed to sit on top of your floorstanding front speakers, or you can wall-mount them if you prefer. The handsome black cabinets contain a Dolby Atmos-certified special network that allows the angled full-range driver to beam object-oriented sounds—such as birdcalls or an aircraft—off your ceiling and into your ears. The result is an envelope of sound overhead from which these precisely localized effects seem to originate, immersing you more deeply into the film. The speakers are constructed from sturdy wood and are finished in quality vinyl laminate, and include two speaker cables and rubber anti-vibration feet to protect your speakers or furniture. Once connected, you can sit back and immerse yourself in a seamless sphere of living sound courtesy of Onkyo and Dolby.	211,00		253,00 ne B
